0027347

0027347.090

0027347.110

FEATURES

CONSTRUCTION AND DESIGN:
Latest generation sub-engine made of high-strength plastic with integrated fin
Fin designed to protect the shock absorber linkage from impacts, mud and sand allows you to slide easily over natural obstacles (whoops, stones, logs) ensuring a smooth ride
The design ensures maximum adherence to the link
6 mm thickness for maximum protection of the frame and engine
Extended protection areas on the side casings, on the valve adjustment cover and in the footrest frame area

Presence of unloading areas to give more lightness, ventilation and facilitate washing operations inside the sub-engine
Design studied to reduce the entry of mud and debris into the engine
Compatible with simultaneous use of X-POWER
Using the two screws supplied and using the original bike attachments, it is possible to fasten and remove the sub-engine quickly.

FEATURES

Latest generation skid plate that allows it to glide smoothly over natural obstacles (whoops, rocks, logs) ensuring a smooth ride. Offers maximum protection to the frame and engine.

Extended protection areas on the side crankcases, water pump and footpeg area frame areas

Presence of exhaust areas to give more lightness, aeration and facilitate washing operations inside the under-engine

Designed to reduce the entry of mud and debris

Compatible with simultaneous use of acerbis x-power (ignition and clutch housing protection)

Mounts easily through the original holes on the frame. Mounting kit included

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

0023660.315

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

FEATURES

Latest generation skid plate with integrated fin Fin designed to protect the linkage of the shock from impacts, mud and sand. It allows you to easily slide over natural obstacles (Whoops, stones, logs) ensuring a smooth ride. The design ensures maximum adherence to the link It offers maximum protection to the chassis and motor. Extended protection areas on the side housings, on the water pump and in the chassis areas Presence of exhaust areas to give more lightness, ventilation and facilitate the washing operations inside the skid plate	Design designed to reduce the ingress of mud and debris Protection of the side housings, on the water pump and in the areas of the chassis Easily mounts thanks the front holes and the original rear seats, with the addition of an additional support guaranteed by two plastic hooks Two-tone label with logo

FEATURES

Latest generation sub-engine with integrated fin
Co-molded fin designed to protect the shock absorber linkage from impact, mud and sand. Allows easy sliding over natural obstacles (whoops, stones, logs) ensuring a smooth ride.
Design ensures maximum grip on the link
6mm thickness for maximum frame and engine protection
Extended protection areas on the side crankcases, water pump, and in the areas of the frame footrest area
Presence of drainage areas to impart more lightness, aeration, and facilitate washing operations inside the sub-engine

Design studied to reduce the ingress of mud and debris
Compatible with simultaneous use of X-Power (Ignition and Clutch Crankcase Protection)
Protection of the side crankcases, on the water pump and in the areas of the frame footrest area
It is easily mounted by taking advantage of the frame sleeper near the mono-shock absorber and through two supplied screws that use the two original slots in the front
Possibility of simultaneous use with x-power
Two-tone nameplate with logo
Weight: 700g

0024255.209

0024255.237

0024255.313

0024255.315

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

FEATURES

CONSTRUCTION AND DESIGN: Next generation sub-engine made with high strength plastic with integrated fin Fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows you to slide easily on natural obstacles ensuring a smooth ride. The design ensures maximum adherence to the link Impact resistant material effectively protects against stones, earth and mud. Flexible and lightweight plastic reduces vibration and surface damage to chassis and engine The air intakes are designed to give more lightness, aeration and facilitate the washing operations inside the sub-engine, reducing the entrance of gravel, earth and mud.	Using the original bindings of the bike the assembly/ disassembly is intuitive to facilitate the normal maintenance and washing of the engine. Extended protection areas on the side housings, on the water pump and in the chassis areas Compatible with simultaneous use of X-Power (Protection crankcase ignition and clutch)

Latest generation skid plate with integrated fin Fin designed to protect the linkage of the shock from impacts, mud and sand. It allows you to easily slide over natural obstacles (Whoops, stones, logs) ensuring a smooth ride. The design ensures maximum adherence to the link It offers maximum protection to the chassis and motor. Extended protection areas on the side housings, on the water pump and in the chassis areas Presence of exhaust areas to give more lightness, ventilation and facilitate the washing operations inside the skid plate	Design designed to reduce the ingress of mud and debris Possibility to combine its use with Acerbis X-Power (clutch and ignition cover protection) Protection of the side housings, on the water pump and in the areas of the chassis Easily mounts by taking advantage of 2 original holes and an integrated bracket that hugs the frame, making it stable and sturdy mounting Two-tone label with logo.

0025193.090

FEATURES

CONSTRUCTION AND DESIGN:

Next generation sub-engine made with high strength plastic with integrated fin

Fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows you to slide easily on natural obstacles ensuring a smooth ride. The design ensures maximum adherence to the link

Impact resistant material effectively protects against stones, earth and mud.

Flexible and lightweight plastic reduces vibration and surface damage to chassis and engine

The air intakes are designed to give more lightness, aeration and facilitate the washing operations inside the sub-engine, reducing the entrance of gravel, earth and mud.

Using the original bindings of the bike the assembly/ disassembly is intuitive to facilitate the normal maintenance and washing of the engine.

Extended protection areas on the side housings, on the water pump and in the chassis areas

Compatible with simultaneous use of X-Power (Protection crankcase ignition and clutch)

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

FEATURES

Smooth Glide Over Obstacles: Advanced under-engine design allows for easy sliding over natural obstacles such as rocks and logs, ensuring a smoother ride.	Mud and Debris Reduction: Designed to minimize the entry of mud and debris during rides.
Maximum Protection: Provides comprehensive protection for the frame and engine.	X-Power Compatibility: Can be used simultaneously with Acerbis X-Power for ignition and clutch cover protection.
Extended Coverage: Includes additional protection for side covers, the water pump, and frame areas around the footrests.	Easy Assembly: Quickly installs with the included Acerbis kit.
Ventilation and Easy Cleaning: Features exhaust areas for improved ventilation, reduced weight, and easier washing inside the under-engine area.	Durable and Lightweight: Weighs 1050 grams, offering excellent protection without excessive weight.
	Not compatible with the original Royal Enfield Engine guard bars cod. KXA00437

SKID PLATE FOR CF
MOTO 450
0026989

0026989.090

FEATURES

The CFMoto skid plate is built to help your bike slide smoothly over rocks, logs, whoops, and other natural terrain—ensuring a faster, more controlled ride. Engineered for maximum protection, it shields the frame, engine, water pump, crankcases, and footpeg areas from impact and debris.

Strategic openings near the back lighten the plate, improve airflow, and make it easier to rinse out mud and dirt. The design also helps prevent buildup by limiting mud and debris from collecting underneath. Weight: 1358g
