GUIDE/SLIDER KIT FOR
KTM/HUSQVARNA/GAS
GAS
0026132**

0026132.010

0026132.090

FEATURES

The Acerbis chain guide and Chain Slider guarantee impact resistance and durability thanks to the high-strength plastic material. The chain guide is made in two pieces: the body and the slide, the latter of which can be replaced once it has worn out. This division also means that the chain does not have to be disassembled when replacing the slide or the chain guide itself.

The slider reduces usage on the chain and improves its alignment, allowing smoother operation and protecting it from debris and sand. Both reduce shaking and oscillation of the chain. The controlled-elasticity design of the chain guide and slider, absorbs shock and minimizes damage to the chain and crown.

ACERBIS CHAIN
GUIDE/SLIDER KIT FOR
KTM
0022349

0022349.010

0022349.090

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

GUIDE/SLIDER KIT FOR
KTM/HUSQVARNA/GAS

0021515

0021515.010

0021515.090

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

APPLICATIONS

0023728.030

0023728.090

0023728.110

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.
