0027315.030

0027315.070

0027315.090

FEATURES

The TARMAC-X is designed for riders who want a helmet that combines touring spirit with sporty character. Its profile is enhanced by a modern rear spoiler, giving the shell a dynamic and aerodynamic look.

The fiberglass structure, with three outer and three inner shells, ensures lightness, strength, and a tailored fit for every size. Maximum safety is guaranteed by the double D-ring closure system, while comfort and practicality are enhanced by the new-generation interior.

Shell material: Fiberglass

Shells: 3 outer + 3 inner

Weight (size M): 1480 ± 50 gr. in size "M".

Retention system: Double D-ring

Main visor: Clear, Pinlock® 70 Max Vision ready

Inner visor: Integrated sun visor

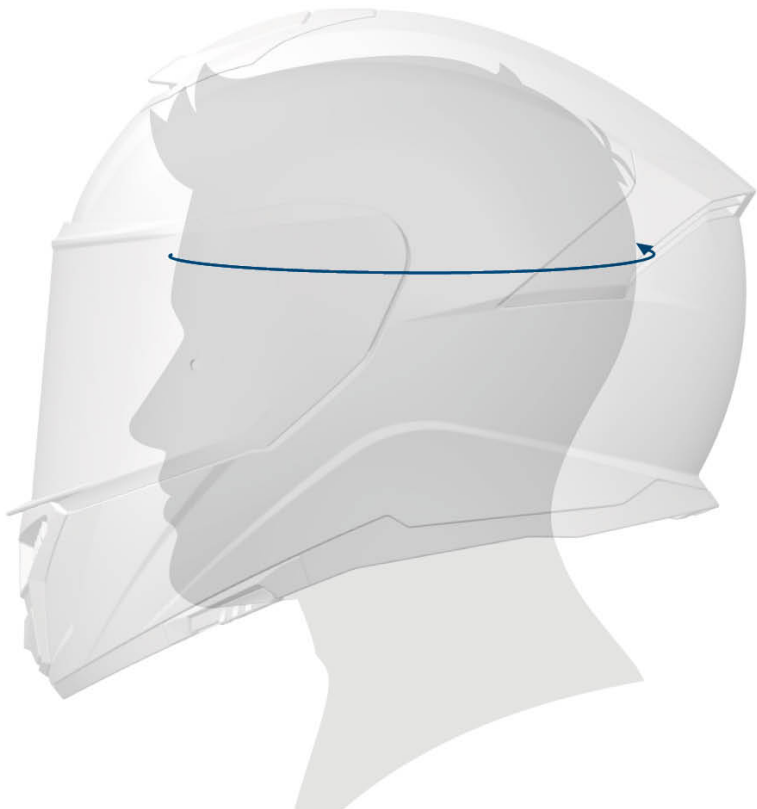

Ventilation: 2 front intakes + 2 rear extractors

Prepared for: Eyeglasses and speakers (45 mm diameter / 5 mm depth)

• Homologation: ECE 22.06

JACKET RAMSEY VENTED LONG LADY 0026792

0026792.899

0026792.090

FEATURES

The Ramsey Vented Long Jacket is designed for those who see their motorcycle not only as a means of transportation, but also as a travel companion.

A jacket designed for summer and mid-seasons, endless roads, dusty trails, and the freedom to always push further.

Made of 450D polyester with large, reinforced mesh panels, it gives you the coolness you need on the hottest days, without sacrificing durability and safety. Every detail has been designed to tackle long touring adventures while ensuring maximum comfort: from the microfleece collar to the multiple adjustments on the arms, wrists, and hips.

Class AA certified (EN 17092-3:2020), the jacket integrates shoulder and elbow protectors and allows you to insert a Level 2 certified back protector (Safe Tech or D30®, sold separately). And if rain catches you off guard, you're ready: just add the waterproof and breathable 5K/5K membrane (sold separately) to keep traveling.

The Ramsey Vented Long is a faithful companion for every summer adventure, from the city to long trips.

Microfleece collar lining + mesh lining

1-layer ventilated jacket

Prepared for 5K/5K waterproof and breathable membrane (sold separately)

WOMEN'S CLOTHING - SIZE GUIDE

HOW TO MEASURE

1. Get a tape measure.
2. Based on what you are buying, compare the measurements you see in the tables below with the measurements you have taken.
3. Are you are between two sizes? Choose the smaller size for a tighter fit, the larger size to be more comfortable.*

CHEST: Measure at the widest point of your chest, holding the tape horizontally.

WAIST: Measure the circumference of your waist at the narrowest point of the abdomen.

SLEEVE: Measure from the shoulder to the wrist.

SIZE	HEIGHT	BREAST	WAIST:	SLEEVE
061 = XS	162-165 cm	80-84 cm	64-68 cm	59-60 cm
062 = S	165-168 cm	84-88 cm	68-72 cm	60-61 cm
064 = M	168-171 cm	88-92 cm	72-76 cm	61-62 cm
066 = L	171-174 cm	92-96 cm	76-80 cm	62-63 cm
068 = XL	174-177 cm	96-101 cm	80-85 cm	63-64 cm
069 = XXL	177-180 cm	101-106 cm	85-90 cm	64-65 cm

* remember that some of our products, such as Offroad jerseys, are already designed to allow the use of protectors underneath them

0026832.315

0026832.203

0026832.457

0026832.869

FEATURES

The Acerbis Airstrike-C helmet is the new top-of-the-line off-road helmet designed to be the benchmark in the category. It combines lightness, safety, comfort, advanced tech, and a full set of accessories.

This totally new, high-performance product is the result of extensive work by Acerbis's R&D team, testers, and riders.

The shell is made of carbon fiber and comes in two sizes, just like the inner EPS foam liners, and it's compatible with all modern neck braces. The design is sleek and aggressive, merging European and American styles in a unique way.

Every detail has been optimized for maximum performance and ease of use, both during races and training. For example, the air intakes are screwed onto the shell and can be removed for cleaning and maintenance.

The peak attaches to the shell without screws for easy handling and a clean, streamlined look.

The shell design is also made for perfect mask strap placement, with a thicker gasket around the area that helps improve grip. The front opening is designed to provide a wider field of vision and makes the helmet compatible with all large goggles.

In terms of safety, the helmet features a lightweight double-D ring chin strap made of red anodized aluminum.

The removable, hypoallergenic, breathable, and washable inner padding is made from soft-touch fabrics that are great at wicking moisture away.

The helmet also includes the new A.C.S. (Acerbis Comfort System), which uses elastics and small rubber suction cups for a better fit and ventilation on top of your head.

Ventilation is top-notch, with 4 air intakes and 6 exhaust vents. The cheek pads have a new attachment system for easier removal, plus silicone logos on the padding to help identify the release points.

The helmet also features a Quick Release System for quick removal in case of an emergency.

Acerbis delivers an impressive helmet not only in performance but also in features: the Airstrike-C comes with a camera mount, an extended peak for extra protection from the sun, water, and mud, and a spare screw kit.

At just 1150g ± 50g, this helmet is one of the lightest ECE 2206 certified helmets on the market.

Overall, the Acerbis Airstrike-C is perfect for off-road enthusiasts who want a helmet that's safe, comfortable, and packed with top-tier features.

Outer shell: Carbon fiber
Approval: ECE 22-06
Double outer shell and double inner shell
Ventilation: 4 intakes-6 extractors
Additional systems: A.C.S.
Additional systems: QRS Emergency
Double ring closure strap.
Equipment: helmet bag + accessory/spare parts kit (support chamber - peak extension - tools - spare screws)

FEATURES

Carbon G 5.0 is a glove designed for on-road use, suitable for motorcyclists looking for a product that combines comfort, protection, and sensitivity. Designed for sport touring and city traffic, it stands out for its sporty look and light weight materials. The back is made from a combination of polyester, nylon, polyurethane, neoprene, and goatskin, while the palm, made from Nanofront synthetic leather, ensures excellent grip and high wear resistance. The rigid knuckles and slider on the palm guarantee protection while allowing maximum freedom of movement.

Perfect for warm weather, the Carbon G 5.0 glove is touchscreen compatible.
CE EN 13594:2015 – level 1 KP approved, it is the ideal choice for road motorcyclists looking for a technical but very lightweight glove.
Type: On Road
Use: Sport Touring – City – Touring
Padding: unpadded
Season: summer
Extra features: touchscreen
Adjustments: 1 on the wrist with strap + Velcro closure
Inserts: silicone on the palm for better grip
Protections: rigid knuckles + custom slider on the palm
Certification: CE EN 13594:2015 – Level 1 KP

BODY ARMOUR FLUX
AIR KID
0027278

0027278.090

FEATURES

<p>The FLUX AIR KID body armor is designed for younger riders who want to tackle their motocross or enduro rides in complete safety. Comfort, lightness, ventilation, freedom of movement, and protection: these are the strengths of this new protective garment by Acerbis. CE-certified protectors on the chest, back, shoulders, and elbows guarantee optimal impact absorption, offering safety in every situation. In off-road riding, it is essential to have protective body armor that also follows the rider's body in every movement, which is why the designers have perfected a system of elastic bands with front Velcro that ensures a stable and customized fit. Made of highly breathable, elastic, and soft mesh fabric, Flux Air Kid protects without hindering movement in any way, even the most extensive ones.</p>	<p>The removable internal protectors make maintenance simple and complete, so you always have a chest protector ready for new adventures.</p> <p>Use: Cross – Enduro – MTB</p> <p>Protected areas: Chest, back, shoulders, and elbows</p> <p>Ventilation: Yes – highly elastic breathable mesh</p> <p>Adjustments: Elastic bands with front Velcro</p> <p>Certifications:</p> <p>Chest protector – EN 1621-3:2018 Level 1</p> <p>Elbow protectors – EN 1621-1:2012 Level 1</p> <p>Shoulder protectors – EN 1621-1:2012 Level 1</p> <p>Back protector – EN 1621-2:2014 Level 1</p> <p>Extra features: Removable internal protectors for complete washing</p>

BODY ARMOUR
PLASMA 2.0
0027258

0027258.318

FEATURES

The Plasma 2.0 was created to offer complete protection and maximum ventilation at the same time. The fabric is limited to essential areas, leaving other areas uncovered to offer maximum thermal comfort and reduces perspiration. Plasma 2.0 is ideal even on the hottest days, perfect for motocross and even more so for enduro, where body temperatures can be higher. The design has been optimized to combine modern aesthetics, greater functionality, and superior comfort, ensuring the rider freedom of movement without compromising safety. The multi-layer construction uses high impact absorption viscoelastic materials combined with a semi-rigid biofoam outer shell: a solution that ensures strength, stability, and durability. The chest, back, shoulder, and elbow protectors are CE Level 2 certified for high-end safety.

The sleeves feature padded shoulder straps that improve stability. The elastic side adjustments and waistband allow for a customized and secure fit, also compatible with neck braces and cervical supports.
Use: Cross – Enduro – MTB
Protected areas: Chest, back, shoulders, and elbows
Ventilation: Yes – lightweight, perforated structure for maximum ventilation
Adjustments: Double Velcro at the waist + elastic band included
Compatibility: Neck brace, cervical braces, back protector
Certifications:

BODY ARMOUR P035
0026918

0026918.090

FEATURES

The P035 BODY ARMOUR is the ideal choice for riders tackling Cross, Enduro, and MTB who demand maximum protection without compromising comfort and freedom of movement. Combining a ventilated, elastic mesh jacket with an integrated chest protector, it delivers lightweight breathability together with a high-level CE certified protection system. Rigid front plates are paired with a soft D30 back protector, which adapts naturally to the rider's body during movement and instantly stiffens upon impact. Shoulder and elbow protectors ensure full coverage, while adjustable Velcro straps and side buckles allow for a personalized and secure fit. Thanks to its mesh construction and perforated zones, the P035 BODY ARMOUR provides optimal ventilation, making it perfect for hot days and demanding off-road sessions. A concentrated blend of technology, safety, and practicality, designed for riders seeking a premium protection solution.

GLOVES CE X-STREET
WP
0026676

0026676.090

0026676.318

0026676.323

FEATURES

The X-STREET WP are technical gloves designed for on-road use, perfect for those looking for a combination of protection, comfort, and waterproofing all year round.

Thanks to the waterproof and breathable Hipora membrane, they can easily handle rain and changing weather conditions, keeping your hands dry and protected.

The back is made from a combination of polyester, nylon, polyurethane, and spandex, with stretch fabrics to ensure freedom of movement, while the synthetic leather palm ensures sensitivity and grip.

Customized rigid knuckles and a palm slider increase safety, while reflective inserts on the back improve nighttime visibility.

Designed with a pre-curved cut, dedicated ventilation, and carefully studied reinforcement details, they offer a comfortable and stable fit, adjustable with a wrist strap and Velcro.

CE EN 13594:2015 – level 1 KP approved, they are the ideal choice for motorcyclists looking for lightweight but waterproof 4-season gloves, perfect for sport touring and city use.

Type: On Road

Use: Sport Touring – City – Touring

Padding: unpadded

Season: 4 seasons (with ventilation and waterproof membrane)

Membrane: Hipora – waterproof and breathable

Extra features: touchscreen compatible

Adjustments: 1 at the wrist with strap + Velcro

Inserts: silicone on the palm for better grip

Protections: custom rigid knuckles + palm slider

Visibility inserts: reflective print on the back

Certification: CE EN 13594:2015 – Level 1 KP

0026661.318

0026661.369

0026661.090

0026661.899

FEATURES

The Ramsey Vented Long Jacket is designed for those who see their motorcycle not only as a means of transportation, but also as a travel companion.

A jacket designed for summer and mid-seasons, endless roads, dusty trails, and the freedom to always push further.

Made of 450D polyester with large, reinforced mesh panels, it gives you the coolness you need on the hottest days, without sacrificing durability and safety. Every detail has been designed to tackle long touring adventures while ensuring maximum comfort: from the microfleece collar to the multiple adjustments on the arms, wrists, and hips.

Class AA certified (EN 17092-3:2020), the jacket integrates shoulder and elbow protectors and allows you to insert a Level 2 certified back protector (Safe Tech or D30®, sold separately). And if rain catches you off guard, you're ready: just add the waterproof and breathable 5K/5K membrane (sold separately) to keep traveling.

The Ramsey Vented Long is a faithful companion for every summer adventure, from the city to long trips.

PANTS RALLY RACE
OVER
0026629

0026629.319

FEATURES

The Rally Race Over Pants are a highly specialized garment, designed by the Acerbis Style Center in collaboration with top rally and enduro riders. They combine comfort and practicality with outstanding durability, making them ideal for all off-road disciplines—especially enduro, rally, and raid. Crafted from stretch fabric with technical AX Suede inserts on the inside of the knees, they provide protection in high-stress areas while maintaining lightness and maximum freedom of movement. Their structure features large, adjustable front vents and mesh calf inserts to ensure excellent airflow, even on the hottest days. For added functionality on long adventures, the Rally Race Over Pants include two spacious cargo pockets for carrying essentials. Designed to be worn comfortably over boots, with an aggressive look and practical details, these pants are the perfect companion for tackling the toughest routes in complete comfort and safety.

Use: Off-road
Seasonality: 3 seasons
Ventilation: 2 large front air intakes with zippers
Adjustments: waist with webbing and Velcro (2 points)
Reinforcements: AX Suede inside knees
Pockets: 2 cargo pockets on thighs
Mesh inserts: calf area
Water repellent
Protections: Not integrated

JACKET RALLY RACE
MESH
0026627

0026627.207

FEATURES

The Rally Race Mesh Jacket is designed for riders who face off-road, enduro, moto-rally, and adventure riding with intensity—even in the most extreme conditions. With its fully ventilated structure and stretch fabric inserts, it offers the perfect balance of lightness, comfort, and breathability, keeping the body cool and free to move. This technical garment is built with high-performance materials and innovative construction features, including Quick System Detachable Sleeves that can be removed in seconds—even while wearing the jacket. Technical precision and ergonomics were central to the design process, with Acerbis’ designers focused on combining advanced performance with maximum comfort and practicality. An example is the external pocket for the Acerbis Drinky System, engineered to distribute the weight of the hydration pack and liquid more evenly toward the front for improved balance. The Rally Race Mesh also offers impressive carrying capacity with six pockets: two at the front and four at the back, including a large rear pocket designed to store the detachable sleeves.

JACKET RALLY RACE
0026626

0026626.248

0026626.319

FEATURES

The Rally Jacket represents Acerbis Off-road's new stylistic direction and the result of extensive R&D with world-class riders and testers in rally and adventure riding. A highly technical garment that combines lightness, comfort, and functionality, it is ideal for both professional riders and off-road enthusiasts. Made from high-strength stretch fabrics, the Rally Jacket ensures freedom of movement in every situation. Its practicality is enhanced by the new Quick System Detachable Sleeves, allowing you to remove the sleeves in seconds—even while wearing the jacket. This jacket is also designed for the Acerbis Drinky System, featuring an easily accessible external pocket. Special attention has been given to the weight distribution of the hydration pack, improving balance and comfort compared to traditional designs. With a high load capacity, the Rally Jacket offers seven pockets, including a large rear pocket for maximum storage. Practicality. Technology. Style. Performance. The perfect choice for tackling any off-road adventure.

FEATURES

The X-FLEX ANAHEIM jersey is the result of continuous innovation and research. Conceived and developed together with the great motocross champions, the jersey reaches a new level of quality, capable of combining strength and comfort. Characterized by the use of stretch fabrics and ventilated mesh, it keeps the body always ventilated. The fitting studied and tested during numerous motocross competitions has led the jersey to adhere perfectly to all the shapes of the rider, guaranteeing any movement, thanks to its incredible elasticity. Taped collar and cuffs avoid seams in annoying places. Laser holes increase ventilation and show the quality and care with which the product was developed.

- Use of stretch fabric and ventilated mesh with focus on ventilation, comfort and lightness
- Keeps the body dry
- Tight fitting to be used with or without protections
- Taped collar and wrists
- Laser-cut holes to increase ventilation
- Flat seams to reduce irritation
- Weight: 170g in size M

FEATURES

The X-FLEX 2.0 ANAHEIM pant is the result of continuous innovation and research. Conceived and developed together with the great motocross champions, the pant reaches a new level of quality, combining durability and comfort.

The use of stretch mesh fabrics and the presence of laser holes for ventilation keep the body ventilated at all times. The fitting studied and tested during numerous motocross competitions has led the pant to adhere perfectly to all rider shapes, guaranteeing any movement thanks to its incredible elasticity. The focus on details are highlighted by the use of taped fabrics on the inside, so as to avoid the use of the lining, waist adjustments with central custom closure and double adjustment at the hips. Always present is Cordura(R) fabric in the saddle contact area and double reinforcement using Ax Suede in the knees to ensure resistance even in high temperatures.

Use of innovative stretch and even more durable fabrics.
Presence of mesh in the calf area to increase ventilation
Use of lasered holes to Keep the rider's body dry
Tight fitting for use with more or less bulky protectors
Presence of internal taped fabrics to avoid the use of lining
Flat seams to reduce irritation
Use of Cordura (R) in the area ci contact with the saddle
Use of double layer of synthetic leather AX Suede (TM) for resistance even at high temperatures

FEATURES

The Acerbis X-Leg Pro Vented Socks are specifically designed for off-road riders using knee guards or braces. These long, ventilated socks feature targeted compression zones to enhance circulation and reduce fatigue. A wide silicone elastic band ensures they stay securely in place, even with intense movement. Made from a blend of polyamide, polypropylene, and elastane, they offer excellent breathability and fast drying for all-day comfort. For optimal performance and comfort during races or training, pair your knee protection with these essential technical socks.

MATERIALS: polyamide, polypropylene, elastane
REINFORCED AREAS: compression zones

GLOVES X-FLEX 2.0
MUD
0026688

0026688.090

FEATURES

Acerbis X-Flex 2.0 Mud is the essential off-road glove for any enduro or motocross rider. Developed through extensive testing with Acerbis athletes, it delivers maximum comfort, sensitivity, and ventilation—with exceptional grip, even in rain and mud. Featuring an aggressive pre-curved shape, mesh inserts, and ventilation holes, the glove stays cool and comfortable, even in hot conditions. The palm is made of highly durable AX Suede synthetic leather, enhanced with silicone details for extreme grip, while a gel insert on the thumb improves comfort when gripping the handlebars. It's also touchscreen compatible, so you can stay connected on the go.

Looking for the ultimate combination of grip and control? Try the Acerbis X-Flex 2.0 Mud—once you wear it, you won't want to ride without it.
