

ACERBIS CHAIN GUIDE FOR TRIUMPH

0026690

0026690.090

FEATURES

The Acerbis chain guide provides impact resistance thanks to its high-strength plastic material. It is made of two pieces: the body and the slide, the latter of which can be replaced once it has worn out, also allowing the chain not to have to be disassembled when replacing the slide or the eyebolt itself.

Reduces oscillatory shaking of the chain
The controlled elasticity structure of the chain guide, absorbs shocks and minimizes damage to the chain and chainring. Easily applied with Acerbis hardware already included, taking advantage of the original holes on the swingarm

FEATURES

The T711 helmet inspired by an American style is the result of research and innovation, able to encapsulate the highest quality performance and safety. Helmet made of fiber with a double outer shell and a full shell that guarantee lightness and rigidity to the product. The visor with adjustable length, in the final part, the result of careful collaboration between the technical team and the riders, allowed to ensure less impact of mud on the mask during the race. The 18 air intakes in the helmet ensure excellent air flow so as to achieve excellent breathability. All this aided by the soft touch system that ensures high moisture evacuation. The provision of the hydration system allows the rider constant water consumption even during longer laps.

**BODY ARMOUR FLUX
AIR**
0026407

0026407.090

FEATURES

The Body armour Flux Air is made of highly breathable mesh fabric with incredible stretch and softness.
CE-certified D30 protectors provide excellent shock absorption. The strength of these protectors is that they provide flexibility and comfort without sacrificing impact performance or movement on the bike, but they harden instantly upon impact.
This protector conforms to the body, protecting against sudden blows while providing great freedom of movement, both in high and low temperatures, and maximum ventilation.
The elastic band connecting the back to the chest provides additional adjustment.

Internal protectors are removable for complete jersey washing.
DETAILS:
Breathability provided by the use of mesh fabric.
Chest, back, shoulder, elbow D30 protectors.
SBS side zipper.
EN 17092-6:2020 referring to Protective clothing for motorcyclists guaranteeing:
1) Impact energy absorption

ACERBIS CHAIN GUIDE FOR KOVE 450 RALLY 0026545

0026545.090

FEATURES

Replacing the original component, it provides greater impact resistance due to its high-strength plastic material. The Cruna is made in two pieces: the body and the slide, the latter of which can be replaced if worn out, also allowing the chain to not have to be disassembled when replacing the slide or the cruna itself.

The controlled elasticity structure of the cruna, absorbs shock and minimizes damage to the chain and sprocket." Chain protection Applies with the included hardware by taking advantage of the original attachments and without having to disassemble the chain thanks to the removable slide

MEN'S TROUSERS - SIZE GUIDE

HOW TO MEASURE

1. Get a tape measure.
2. Based on what you are buying, compare the measurements you see in the tables below with the measurements you have taken.
3. Are you between two sizes? Choose the smaller size for a tighter fit, the larger size to be more comfortable.

WAIST: measure the circumference of your waist at the narrowest point of your abdomen (the indentation that forms if you bend to one side), keeping the tape measure horizontal.

HIP: measure at the widest point of the hips, keeping the tape horizontal.

LEG: Measure from the inseam to the ankle, holding the tape vertically.
