ACERBIS CHAIN GUIDE FOR TRIUMPH 0026690

0026690.090

FEATURES

The Acerbis chain guide provides impact resistance thanks to its high-strength plastic material. It is made of two pieces: the body and the slide. The slide is replaceable when worn. The 2-piece construction also means the chain does not have to be disassembled when mounting the guide or replacing the slide.

The controlled-elasticity construction of the guide absorbs shock and minimizes damage to the chain and sprocket; it also reduces oscillatory shaking of the chain. It is easily applied on the original housings on the swingarm. Mounting kit included.
