## FEATURES

The T711 helmet inspired by an American style is the result of research and innovation, able to encapsulate the highest quality performance and safety. Helmet made of fiber with a double outer shell and a full shell that guarantee lightness and rigidity to the product. The visor with adjustable length, in the final part, the result of careful collaboration between the technical team and the riders, allowed to ensure less impact of mud on the mask during the race. The 18 air intakes in the helmet ensure excellent air flow so as to achieve excellent breathability. All this aided by the soft touch system that ensures high moisture evacuation. The provision of the hydration system allows the rider constant water consumption even during longer rides.

FEATURES

The new Attack helmet designed for the modern explorer, our fiber Adventure helmet is the perfect combination of light weight, strength and aerodynamics.

Ideal for those who enjoy tackling rough terrain and long road rides, this helmet was created to ensure optimal performance even at high speeds while maintaining high comfort. The shell is made of fiber, which provides exceptional strength with a low weight of 1450 g  $\pm$  50 g in size "M." Thanks to the front and upper air intakes, fresh air is precisely channeled to provide effective ventilation, ensuring coolness even on the hottest days. Thanks also to the rear outlet that allows hot air to be quickly expelled, constantly maintaining an optimal internal temperature. The aerodynamic design of the helmet was developed to minimize air resistance, contributing to a smoother and more stable ride even at high speeds. A huge step forward was taken with the innovative aerodynamic peak, fixed at 4 points instead of the traditional 3, which ensures maximum strength and stability, whatever the circumstances.

The panoramic visor, treated with an anti-scratch and anti-fog coating thanks also to the possibility of inserting PINLOCK, offers a wide and clear field of vision, improving safety on and off the road. The helmet also features a fully removable and washable interior made of hypoallergenic and breathable fabric to ensure lasting comfort even during the most demanding rides. The double-ring closure system ensures maximum security.

Double fiber glass outer shell
