FEATURES

The T711 helmet inspired by an American style is the result of research and innovation, able to encapsulate the highest quality performance and safety. Helmet made of fiber with a double outer shell and a full shell that guarantee lightness and rigidity to the product. The visor with adjustable length, in the final part, the result of careful collaboration between the technical team and the riders, allowed to ensure less impact of mud on the mask during the race. The 18 air intakes in the helmet ensure excellent air flow so as to achieve excellent breathability. All this aided by the soft touch system that ensures high moisture evacuation. The provision of the hydration system allows the rider constant water consumption even during longer rides.

Outer shell: fiber glass.
ECE/ONU 22-06 HOMOLOGATION.
Double outer shell, double inner shell.
WEIGHT 1100g +- 50g in size "M".
18 air intakes
Double ring strap closure.
Shell compatible with Neck Brace.
Soft touch interior for effective humidity release.
Removable, hypo-allergenic and washable interior.
Peak with adjustable length and integrated magnet in the center to facilitate the positioning
