0026682.315

FEATURES

Acerbis Pants Mx Vented is the new pant for all off-road enthusiasts. It is a product that combines an extremely attractive look, with sublimated print, with an interesting technicality. MX Vented is a pant designed for hot climates that allows the rider to ride while remaining cool and dry thanks to the light and ventilated fabric with which it is constructed. Mobility is ensured by the many stretch inserts in the crotch area, above the knee, and in the calf area. The waist adjustment is threefold: two on the hips with Velcro and one micrometric at the front. To ensure excellent resistance in the most demanding offroad practices, Acerbis Pants Mx Vented has reinforced nylon zones in the knee area that can also wear modern braces thanks to the conformation of the trousers in that area.

Lightweight fabrics made with sublimation print graphics.  
Elastic inserts in the calf area, front crotch and rear area for better mobility  
Cordura® insert in the knee area  
Regular fitting to follow the needs of different riders.

**MEN'S TROUSERS - SIZE GUIDE**

### HOW TO MEASURE

1. Get a tape measure.
2. Based on what you are buying, compare the measurements you see in the tables below with the measurements you have taken.
3. Are you between two sizes? Choose the smaller size for a tighter fit, the larger size to be more comfortable.

WAIST: measure the circumference of your waist at the narrowest point of your abdomen (the indentation that forms if you bend to one side), keeping the tape measure horizontal.

HIP: measure at the widest point of the hips, keeping the tape horizontal.

LEG: Measure from the inseam to the ankle, holding the tape vertically.
