FEATURES

Acerbis Pants Mx Vented is the new pant for all off-road enthusiasts. It is a product that combines an extremely attractive look, with sublimated print, with an interesting technicality. MX Vented is a pant designed for hot climates that allows the rider to ride while remaining cool and dry thanks to the light and ventilated fabric with which it is constructed. Mobility is ensured by the many stretch inserts in the crotch area, above the knee, and in the calf area. The waist adjustment is threefold: two on the hips with Velcro and one micrometric at the front. To ensure excellent resistance in the most demanding offroad practices, Acerbis Pants Mx Vented has reinforced nylon zones in the knee area that can also wear modern braces thanks to the conformation of the trousers in that area.

Lightweight fabrics made with sublimation print graphics.
Elastic inserts in the calf area, front crotch and rear area for better mobility
Cordura® insert in the knee area
Regular fitting to follow the needs of different riders.

Taped collar and cuffs avoid seams in annoying places. Laser holes increase ventilation and show the quality and care with which the product was developed.

- Use of stretch fabric and ventilated mesh with focus on ventilation, comfort and lightness
- Keeps the body dry
- Tight fitting to be used with or without protections
- Taped collar and wrists
- Laser-cut holes to increase ventilation
- Flat seams to reduce irritation
