Conceived and developed together with the great motocross champions, the jersey reaches a new level of quality, capable of combining strength and comfort. Characterized by the use of stretch fabrics and ventilated mesh, it keeps the body always ventilated. The fitting studied and tested during numerous motocross competitions has led the jersey to adhere perfectly to all the shapes of the rider, guaranteeing any movement, thanks to its incredible elasticity. Taped collar and cuffs avoid seams in annoying places. Laser holes increase ventilation and show the quality and care with which the product was developed.
