| <p>The FLUX AIR KID body armor is designed for younger riders who want to tackle their motocross or enduro rides in complete safety. Comfort, lightness, ventilation, freedom of movement, and protection: these are the strengths of this new protective garment by Acerbis. CE-certified protectors on the chest, back, shoulders, and elbows guarantee optimal impact absorption, offering safety in every situation. In off-road riding, it is essential to have protective body armor that also follows the rider's body in every movement, which is why the designers have perfected a system of elastic bands with front Velcro that ensures a stable and customized fit. Made of highly breathable, elastic, and soft mesh fabric, Flux Air Kid protects without hindering movement in any way, even the most extensive ones.</p> | <p>The removable internal protectors make maintenance simple and complete, so you always have a chest protector ready for new adventures.</p> <p>Use: Cross – Enduro – MTB</p> <p>Protected areas: Chest, back, shoulders, and elbows</p> <p>Ventilation: Yes – highly elastic breathable mesh</p> <p>Adjustments: Elastic bands with front Velcro</p> <p>Certifications:</p> <p>Chest protector – EN 1621-3:2018 Level 1</p> <p>Elbow protectors – EN 1621-1:2012 Level 1</p> <p>Shoulder protectors – EN 1621-1:2012 Level 1</p> <p>Back protector – EN 1621-2:2014 Level 1</p> <p>Extra features: Removable internal protectors for complete washing</p> |

BODY ARMOUR  
PLASMA 2.0  
0027258

0027258.318

FEATURES

The Plasma 2.0 was created to offer complete protection and maximum ventilation at the same time. The fabric is limited to essential areas, leaving other areas uncovered to offer maximum thermal comfort and reduces perspiration. Plasma 2.0 is ideal even on the hottest days, perfect for motocross and even more so for enduro, where body temperatures can be higher. The design has been optimized to combine modern aesthetics, greater functionality, and superior comfort, ensuring the rider freedom of movement without compromising safety. The multi-layer construction uses high impact absorption viscoelastic materials combined with a semi-rigid biofoam outer shell: a solution that ensures strength, stability, and durability. The chest, back, shoulder, and elbow protectors are CE Level 2 certified for high-end safety.

The sleeves feature padded shoulder straps that improve stability. The elastic side adjustments and waistband allow for a customized and secure fit, also compatible with neck braces and cervical supports.  
Use: Cross – Enduro – MTB  
Protected areas: Chest, back, shoulders, and elbows  
Ventilation: Yes – lightweight, perforated structure for maximum ventilation  
Adjustments: Double Velcro at the waist + elastic band included  
Compatibility: Neck brace, cervical braces, back protector  
Certifications:  
Chest protector – EN 1621-3:2018 Level 2  
Full back protector – EN 1621-2:2014 Level 2  
Shoulder protectors – EN 1621-1:2012 Level 2  
Elbow protectors – EN 1621-1:2012 Level 2

PRODUCT DETAILS

Plastic front plates and soft D30 protectors integrated into nylon mesh

Made In: China

JACKET P035  
0026917

0026917.090

FEATURES

The P035 Jacket is a protective full length jersey consisting of a vest made of elastic nylon mesh and protectors on the shoulders and elbows. The P035 Jacket is designed to be paired with a vest with protectors or airbag and to be worn under any off-road jersey, even those with a slim fit. This is a highly breathable product that offers a snug and comfortable fit. Thanks to the integrated CE Level 2 certified protectors on the shoulders and elbows, it guarantees safety without compromising freedom of movement in any way. The front zipper closure makes it practical and quick to put on, while the ventilated fabric ensures constant ventilation even on the hottest days.

Bulleted list  
Use: Cross – Enduro – MTB

BODY ARMOUR P035  
0026918

0026918.090

FEATURES

The P035 BODY ARMOUR is the ideal choice for riders tackling Cross, Enduro, and MTB who demand maximum protection without compromising comfort and freedom of movement. Combining a ventilated, elastic mesh jacket with an integrated chest protector, it delivers lightweight breathability together with a high-level CE certified protection system. Rigid front plates are paired with a soft D30 back protector, which adapts naturally to the rider's body during movement and instantly stiffens upon impact. Shoulder and elbow protectors ensure full coverage, while adjustable Velcro straps and side buckles allow for a personalized and secure fit. Thanks to its mesh construction and perforated zones, the P035 BODY ARMOUR provides optimal ventilation, making it perfect for hot days and demanding off-road sessions. A concentrated blend of technology, safety, and practicality, designed for riders seeking a premium protection solution.

| <p>At Acerbis, one of our core missions is to provide the highest level of protection—for both the rider and the bike. Introducing the Density Vest, a breakthrough in body armor made with innovative yarn weaving technology.</p> <p>This new design delivers exceptional breathability, elasticity, and softness. With strategically placed ventilation zones and muscle compression areas, the Density Vest ensures maximum performance, comfort during intense activity, and reduced recovery time.</p> <p>Ideal for off-road riders (motocross, enduro, rally), as well as road-adventure and MTB Gravity/E-MTB enthusiasts, the Density Vest blends high performance with striking aesthetics. It is CE EN 17092-6:2020 certified and features level 1 rigid protectors on the front and back, along with shoulder and elbow protection.</p> | <p>Thanks to its tear- and abrasion-resistant seams and fabric, the Density Vest can be worn as a standalone garment—something most protective gear can't offer. It combines the lightweight feel of a base layer with the robust protection of traditional body armor.</p> <p>Fastened with a convenient SBS side zipper, the Density Vest is ready to become your go-to companion for every ride.</p> <p>Certifications &amp; Protective Features:</p> <p>Garment: Compliant with EN 17092-6:2020 – Protective clothing for motorcyclists</p> <p>Back Protector: Certified to EN 1621-2:2014, Level 1</p> <p>Chest Protector: Certified to EN 1621-3:2018, Level 1</p> <p>Performance Characteristics:</p> <p>High resistance to impact abrasion</p> <p>Durable stitching and secure structural closures</p> <p>Excellent tear resistance</p> |

## FLUX AIR VEST D30®

0026742

0026742.090

## FEATURES

Acerbis Flux Air Vest is a body-armor designed for all offroad but also adventure-touring practices. Comfort, practicality, protection: these are the main strengths of a product that will guarantee you maximum freedom of movement, reference ventilation and excellent shock absorption at the most exposed points: chest, back. Flux Air Vest, which is certified EN 17092-6:2020 C, offers a structure made of high breathability/elasticity mesh fabric that accommodates D30 protectors able to remain soft and comfortable in common use and to harden, protecting the body, in case of impact. Chest protection is level 1 while back protection is level 2. Flux Air Vest is the perfect protective body-armor for motocross, enduro, adventuring, touring but also for MTB thanks to its great lightness and freshness. This body-armor signed Acerbis is worn with the utmost ease thanks to the ergonomic study of the technicians and closes with a practical SBS side zipper that runs along the entire product. The perfect fit is achieved thanks to the adjustment elastics that connect the back to the chest protector. The D30 protectors are obviously removable so the product is easily washable. Are you ready to discover Flux Air Vest? You'll forget you're wearing a protective vest. You'll only think about riding and having fun.

Materials: PU, EVA, POLYESTER, NYLON  
Protection: back, chest  
Certification: EN 17092-6:2020 C  
Level: C  
Back protection level: 2  
Chest protection level: 1

FEATURES

The modern P035 S is a lightweight CE-certified protector that offers a small footprint and provides excellent body protection against impact.  
The body armour fits all body types, thanks to adjustments on the shoulder straps and at the waist, providing excellent protection and ease of movement.  
Equipped with super-ventilated plastic plates that conform to the body, fixed on soft biofoam, for more shock-absorbing protection and better fitting.

CHEST PROTECTOR certified EN 2003:14021 stone protector  
BACK PROTECTOR certified EN 2003:14021 stone protector  
Plastic chest and back protectors.  
Breathability guaranteed by aerated plastic  
Closure by plastic hooks  
Adjustment by side elastic and shoulder straps with Velcro adjustment.

FEATURES

The modern P035 L1 is a lightweight CE-certified protector that offers a small footprint and provides excellent body protection against impact.

The bib fits all body types, thanks to adjustments on the shoulder straps and at the waist, providing excellent protection and ease of movement.

Equipped with super-ventilated plastic plates that conform to the body, fixed on soft biofoam, for shock-absorbing protection and better fitting. Removable inner padding, also ventilated, ensures maximum ventilation. Possibility to use the back without plastic, only with soft protection.

BACK PROTECTOR certified EN 1621-2: 2014 level 1  
FRONT certified EN 1621-3:2018 level 1  
Plastic protectors with EVA padding on chest and back.  
Breathability provided by plastic with ventilation openings with perforated foam underneath  
Closure by plastic hooks  
Adjustment by side elastic and shoulder straps with Velcro adjustment.

| <p>The Plasma JR Body armour is a protector designed for children 7 to 12 years old, CE certified that offers excellent body protection against impact. This construction combines the lightness/action of a motocross body armour and the protection of a body armour. Featuring an innovative multilayer of soft materials with high impact absorption for: ventilation, protection, light weight and flexibility.</p> <p>Soft torso protectors conform to the body, two viscoelastic layers are constrained by semi-rigid outer biofoam, for more impact-absorbing protection, better fitting and durability in use.</p> <p>Removable shoulder and elbow protectors, are attached to sleeves of perforated stretch fabric, designed to provide high breathability and adherence to the arms. The sleeves themselves attach to the shoulder straps of the body armour, which leaves the sides free of fabric to increase heat exchange and breathability.</p> | <p>The low thickness and softness of the torso and back protection are designed for neck-brace use</p> <p>EN 17092-6:2020 referring to Protective clothing for motorcyclists.</p> <p>BACK PROTECTOR certified EN 1621-2:2014 level 1</p> <p>SHOULDER AND ELBOW PROTECTION certified EN 1621-1:2012 level 1</p> <p>FRONT certified EN 1621-3:2018 level 1</p> <p>HD biofoam protectors with EVA padding on chest and back.</p> <p>Memory foam shoulder and elbow protectors for high shock absorption.</p> <p>Breathability provided by perforated high-intensity biofoam and fabric underneath also perforated.</p> <p>Side closures via Velcro and Velcro waist band.</p> <p>Side adjustments via elastic bands and waist band.</p> <p>A logo insert on front and back protectors. TPR Acerbis logo on back and Acerbis logo on TPR side velcro.</p> |

FEATURES

**CONSTRUCTION AND DESIGN:**  
Innovative multilayer of soft materials with high impact absorption: ventilation, protection, lightness, and flexibility  
The bust protectors are soft and pre-shaped, they adapt to the female anatomy, three viscoelastic layers are bound by semi-rigid external biofoam, for greater shock-absorbing protection, better fitting and durability in use  
The bib leaves the ribs free from fabric to increase heat exchange and breathability  
Elastic waistband with the possibility of being removed: adjustable in extension and rotation

The low thickness and the softness of the chest and back protection are designed for the use of the neck-brace  
Adaptability to different body sizes thanks to velcro adjustments on the shoulders and elastic bands on the ribs  
**BODY PROTECTIONS:**  
Chest protection with EN 1621-3 CE LEVEL 2 approval  
Back protector with EN 1621-2 CE LEVEL 2 approval  
Padded ribs  
**SIZES:** SINGLE THAT GOES FROM “S” to “XL” (from 150cm to 180cm) thanks to the possibility of adjusting the shoulder straps.

PLASMA BODY  
ARMOUR LEVEL 2  
0024515

0024515.318

FEATURES

MANUFACTURING AND DESIGN:

Innovative multi-layer soft materials with high impact absorption: ventilation, protection, lightness, and flexibility

The soft torso protectors adapt to the body, three viscoelastic layers are bound by semi-rigid external biofoam, providing better shock absorbing protection, fitting and wear resistance

The innovative design combines the versatility of a cross chest protector and the extended and enhanced protection of a body armour: the removable shoulder and elbow protectors, are fitted with perforated stretch fabric sleeves, designed to ensure high breathability and adherence to the arms. The sleeves themselves are attached to the padded shoulder straps of the chest protector, leaving the ribs free of fabric to increase heat exchange and breathability

Waist elastic band

The low thickness and the softness of the torso and back protection are designed to accommodate the neck-brace

Adaptability to different body sizes thanks to elastic adjustments on the sides and waistband

BODY PROTECTION

Chest protection with EN 1621-3 CE LEVEL 2 approval

Back protector with EN 1621-2 CE LEVEL 2 approval

Shoulder and elbow protection extended in soft material with EN 1621-1 CE LEVEL 2 approval

Padded rib protection

SPECKTRUM KID  
BODY ARMOUR  
0024545

0024545.318

FEATURES

Innovative nest-texture for plastic parts: ventilation, protection, light weight  
Plastic plates adapting to the body, fitted on soft biofoam, for a better shock-absorbing protection and body-fitting  
The innovative design combines the light weight/ventilation of a cross chest protector and a body armour protection: the shoulder and elbow protectors are fitted on sleeves of perforated stretch fabric, designed to guarantee high breathability and adherence to the arms. The sleeves themselves are attached to the padded shoulder straps of the chest protector, leaving the ribs free of fabric to increase heat exchange and breathability.

Removable back and front protection to accommodate the neck-brace  
Adaptability to different body sizes thanks to adjustments on the sides  
BODY PROTECTION  
Chest protection EN1621-3:2018 LEVEL 2 certified  
Back protector EN1621-2:2014 EC LEVEL 2 certified  
Shoulder and elbow protection extended in soft material  
EN1621-1:2012 LEVEL 1 certified  
Semi-rigid rib protectors with stone shield approval EN 14021:2003

0027097.347

0027097.030

0027097.090

0027097.070

FEATURES

Face every challenge without fear. The KNEE GUARD IMPACT PRO is built for riders who push beyond their limits and demand nothing less than maximum protection, comfort, and freedom of movement. Every detail has been engineered for extreme conditions: the rigid outer shell shields you from the hardest impacts, while the high-density EVA padding absorbs energy and wraps your leg in superior comfort. The dual-hinge system at the knee follows your every motion, turning protection into a natural extension of your body. Not an obstacle, but an ally. With three adjustable elastic straps with quick-release clips, the guard stays firmly in place even during the most aggressive riding. Meanwhile, the ventilated perforated shells keep airflow constant, ensuring freshness and focus when it matters most.

The KNEE GUARD IMPACT PRO is not just protection—it's modern armor, created for riders who live off-road as a mission. Cross, Enduro, MTB: wherever there's ground to conquer, this is your weapon.

? Technical Specifications  
Use: Cross – Enduro – MTB  
Protected areas: Knee, tibia, femur  
Structure: Rigid shell + high-density EVA padding  
Ventilation: Perforated shells with integrated air channels  
Hinge: Dual-hinge ergonomic system for maximum freedom of movement  
Closure: Three adjustable elastic straps with quick-release clips  
Certification: EN 1621-1:2012 – Level 1

K035 KNEE GUARD  
0026740

0026740.070

0026740.030

0026740.090

FEATURES

The K035 knee brace provides impact protection and limits knee hyperextension. Lightweight yet durable, this protector features a honeycomb outer shell with an advanced design that uses hexagonal cell geometry to effectively distribute and absorb impact energy, achieving an optimal balance between light weight and strength. The outer shell, combined with the perforated inner lining material, ensures stability and ventilation. The double-joint mechanism and semi-rigid plastic construction are designed to meet Level 2 certification, offering strength, comfort, and adaptability to knee movement while riding. Additional removable padding, secured with Velcro, allows the knee pad to be perfectly adjusted to the rider's joint. Highly breathable neoprene bands ensure proper positioning of the knee pad and provide excellent ventilation. Elastic bands enable optimal tensioning, firmly securing the protection to the rider's joint. This adjustable system allows a custom fit based on comfort and safety preferences without compromising effectiveness.

Elastic socks, designed to be worn under the knee pad to prevent rubbing and irritation, are included with the product. Made of elastic material with a breathable back insert, they provide additional comfort and ventilation.  
Certification: EN 1621-1/2012 HOMOLOGATED Knee Protection: Level 2  
Features:  
Plastic knee protectors  
Breathability ensured by perforated honeycomb plastic, ventilated interior, and breathable neoprene bands  
Closure via neoprene bands with Velcro and tensioning with ventilated elastic bands  
Adjustable fit with elastic Velcro straps  
Removable inner padding for a customized fit  
Weight: 0.830 kg / 1.98lbs  
Sizes: one size fits all
