BODY ARMOUR FLUX
AIR KID
0027278

0027278.090

FEATURES

The FLUX AIR KID body armor is designed for younger riders who want to tackle their motocross or enduro rides in complete safety. Comfort, lightness, ventilation, freedom of movement, and protection: these are the strengths of this new protective garment by Acerbis. CE-certified protectors on the chest, back, shoulders, and elbows guarantee optimal impact absorption, offering safety in every situation. In off-road riding, it is essential to have protective body armor that also follows the rider's body in every movement, which is why the designers have perfected a system of elastic bands with front Velcro that ensures a stable and customized fit. Made of highly breathable, elastic, and soft mesh fabric, Flux Air Kid protects without hindering movement in any way, even the most extensive ones.	The removable internal protectors make maintenance simple and complete, so you always have a chest protector ready for new adventures. Use: Cross – Enduro – MTB Protected areas: Chest, back, shoulders, and elbows Ventilation: Yes – highly elastic breathable mesh Adjustments: Elastic bands with front Velcro Certifications: Chest protector – EN 1621-3:2018 Level 1 Elbow protectors – EN 1621-1:2012 Level 1 Shoulder protectors – EN 1621-1:2012 Level 1 Back protector – EN 1621-2:2014 Level 1 Extra features: Removable internal protectors for complete washing

BODY ARMOUR DNA
2.0 LIGHT
0027259

0027259.318

FEATURES

The DNA 2.0 is a chest protector designed for riders who tackle cross and enduro trails and want high-level protection that is also comfortable. Inspired by DNA, this product has undergone a major restyling that has resulted in improved aesthetics, better functionality, and a lighter, more ventilated construction, optimized for intense off-road use. Its multi-layer structure combines soft, high-impact absorption materials with semi-rigid external biofoam: this two-component solution has resulted in superior protection, durability, and a unique fit. DNA 2.0 is compatible with neck braces and, thanks to the low thickness and flexibility of the chest and back protectors, guarantees maximum freedom of movement.	The elastic adjustments on the sides and waistband ensure great stability even in the most extreme conditions. The great ventilation and level 2 protections make DNA 2.0 the ideal choice for those looking for protection, lightness, and versatility. Use: Cross – Enduro – MTB Protected areas: Chest and back Ventilation: Yes – structure optimized for constant ventilation Adjustments: Double Velcro at the waist + elastic band included Compatibility: Neck brace and cervical stabilizers Certifications: Chest protector – EN 1621-3:2018 Level 2 and Back protector EN 1621-2-2014 Level 2

BODY ARMOUR
PLASMA 2.0
0027258

0027258.318

FEATURES

The Plasma 2.0 was created to offer complete protection and maximum ventilation at the same time. The fabric is limited to essential areas, leaving other areas uncovered to offer maximum thermal comfort and reduces perspiration. Plasma 2.0 is ideal even on the hottest days, perfect for motocross and even more so for enduro, where body temperatures can be higher. The design has been optimized to combine modern aesthetics, greater functionality, and superior comfort, ensuring the rider freedom of movement without compromising safety. The multi-layer construction uses high impact absorption viscoelastic materials combined with a semi-rigid biofoam outer shell: a solution that ensures strength, stability, and durability. The chest, back, shoulder, and elbow protectors are CE Level 2 certified for high-end safety.

The sleeves feature padded shoulder straps that improve stability. The elastic side adjustments and waistband allow for a customized and secure fit, also compatible with neck braces and cervical supports.
Use: Cross – Enduro – MTB
Protected areas: Chest, back, shoulders, and elbows
Ventilation: Yes – lightweight, perforated structure for maximum ventilation
Adjustments: Double Velcro at the waist + elastic band included
Compatibility: Neck brace, cervical braces, back protector
Certifications:

BODY ARMOUR P035
RACE
0026916

0026916.090

FEATURES

The P035 RACE is the ideal chest protector for those who experience off-road riding like a true pro, from training on cross tracks to the most intense enduro rides. Thanks to its light weight, it is also ideal for Enduro or Downhill MTB riding. Designed to offer maximum protection with minimum bulk, it combines lightweight materials and comfort with the highest level of safety (level 2). The rigid front plates are combined with soft protectors that are placed in contact with the rider's body to increase ergonomics. The latter are made of D30, a material that remains flexible while riding but can instantly stiffen in the event of an impact. The fit is fully customizable thanks to the Velcro shoulder straps and side buckles, allowing it to adapt perfectly to the rider's body and needs.	The large mesh areas ensure high comfort, allowing you to tackle even the hottest days without sacrificing protection. The P035 RACE is a high-end product, a combination of protective technology and practicality, which works with all modern cervical braces. Use: Cross – Enduro – MTB Protected areas: Chest and back Ventilation: Yes – large perforated areas Adjustments: Adjustable Velcro shoulder straps + side closures with buckles Certifications: Back protector – EN 1621-2:2014 Level 2 - Chest protector – EN 1621-3:2018 Level 2 Compatibility: Neck stabilizer, P035 Jacket, P035 shoulder protectors

JACKET P035
0026917

0026917.090

FEATURES

The P035 Jacket is a protective full length jersey consisting of a vest made of elastic nylon mesh and protectors on the shoulders and elbows. The P035 Jacket is designed to be paired with a vest with protectors or airbag and to be worn under any off-road jersey, even those with a slim fit. This is a highly breathable product that offers a snug and comfortable fit. Thanks to the integrated CE Level 2 certified protectors on the shoulders and elbows, it guarantees safety without compromising freedom of movement in any way. The front zipper closure makes it practical and quick to put on, while the ventilated fabric ensures constant ventilation even on the hottest days.

Bulleted list
Use: Cross – Enduro – MTB
Protected areas: Shoulders and elbows

BODY ARMOUR P035
0026918

0026918.090

FEATURES

The P035 BODY ARMOUR is the ideal choice for riders tackling Cross, Enduro, and MTB who demand maximum protection without compromising comfort and freedom of movement. Combining a ventilated, elastic mesh jacket with an integrated chest protector, it delivers lightweight breathability together with a high-level CE certified protection system. Rigid front plates are paired with a soft D30 back protector, which adapts naturally to the rider's body during movement and instantly stiffens upon impact. Shoulder and elbow protectors ensure full coverage, while adjustable Velcro straps and side buckles allow for a personalized and secure fit. Thanks to its mesh construction and perforated zones, the P035 BODY ARMOUR provides optimal ventilation, making it perfect for hot days and demanding off-road sessions. A concentrated blend of technology, safety, and practicality, designed for riders seeking a premium protection solution.

DENSITY VEST
0026741

0026741.318

FEATURES

At Acerbis, one of our core missions is to provide the highest level of protection—for both the rider and the bike. Introducing the Density Vest, a breakthrough in body armor made with innovative yarn weaving technology. This new design delivers exceptional breathability, elasticity, and softness. With strategically placed ventilation zones and muscle compression areas, the Density Vest ensures maximum performance, comfort during intense activity, and reduced recovery time. Ideal for off-road riders (motocross, enduro, rally), as well as road-adventure and MTB Gravity/E-MTB enthusiasts, the Density Vest blends high performance with striking aesthetics. It is CE EN 17092-6:2020 certified and features level 1 rigid protectors on the front and back, along with shoulder and elbow protection.

Thanks to its tear- and abrasion-resistant seams and fabric, the Density Vest can be worn as a standalone garment—something most protective gear can't offer. It combines the lightweight feel of a base layer with the robust protection of traditional body armor. Fastened with a convenient SBS side zipper, the Density Vest is ready to become your go-to companion for every ride. Certifications & Protective Features:
Garment: Compliant with EN 17092-6:2020 – Protective clothing for motorcyclists
Back Protector: Certified to EN 1621-2:2014, Level 1
Chest Protector: Certified to EN 1621-3:2018, Level 1
Performance Characteristics:
High resistance to impact abrasion
Durable stitching and secure structural closures
Excellent tear resistance

FLUX AIR VEST D30®

0026742

0026742.090

FEATURES

Acerbis Flux Air Vest is a body-armour designed for all offroad but also adventure-touring practices. Comfort, practicality, protection: these are the main strengths of a product that will guarantee you maximum freedom of movement, reference ventilation and excellent shock absorption at the most exposed points: chest, back. Flux Air Vest, which is certified EN 17092-6:2020 C, offers a structure made of high breathability/elasticity mesh fabric that accommodates D30 protectors able to remain soft and comfortable in common use and to harden, protecting the body, in case of impact. Chest protection is level 1 while back protection is level 2. Flux Air Vest is the perfect protective body-armour for motocross, enduro, adventuring, touring but also for MTB thanks to its great lightness and freshness. This body-armour signed Acerbis is worn with the utmost ease thanks to the ergonomic study of the technicians and closes with a practical SBS side zipper that runs along the entire product. The perfect fit is achieved thanks to the adjustment elastics that connect the back to the chest protector. The D30 protectors are obviously removable so the product is easily washable. Are you ready to discover Flux Air Vest? You'll forget you're wearing a protective vest. You'll only think about riding and having fun.

BODY ARMOUR FLUX
AIR D30®
0026407

0026407.090

FEATURES

The Body armour Flux Air is made of highly breathable mesh fabric with incredible stretch and softness.
CE-certified D30 protectors provide excellent shock absorption.
The strength of these protectors is that they provide flexibility and comfort without sacrificing impact performance or movement on the bike, but they harden instantly upon impact.
This protector conforms to the body, protecting against sudden blows while providing great freedom of movement, both in high and low temperatures, and maximum ventilation.
The elastic band connecting the back to the chest provides additional adjustment.

Internal protectors are removable for complete jersey washing.
DETAILS:
Breathability provided by the use of mesh fabric.
Chest, back, shoulder, elbow D30 protectors.
SBS side zipper.

BODY ARMOUR
PLASMA KID
0026315

0026315.318

FEATURES

The Plasma JR Body armour is a protector designed for children 7 to 12 years old, CE certified that offers excellent body protection against impact. This construction combines the lightness/action of a motocross body armour and the protection of a body armour. Featuring an innovative multilayer of soft materials with high impact absorption for: ventilation, protection, light weight and flexibility. Soft torso protectors conform to the body, two viscoelastic layers are constrained by semi-rigid outer biofoam, for more impact-absorbing protection, better fitting and durability in use. Removable shoulder and elbow protectors, are attached to sleeves of perforated stretch fabric, designed to provide high breathability and adherence to the arms. The sleeves themselves attach to the shoulder straps of the body armour, which leaves the sides free of fabric to increase heat exchange and breathability.	The low thickness and softness of the torso and back protection are designed for neck-brace use EN 17092-6:2020 referring to Protective clothing for motorcyclists. BACK PROTECTOR certified EN 1621-2:2014 level 1 SHOULDER AND ELBOW PROTECTION certified EN 1621-1:2012 level 1 FRONT certified EN 1621-3:2018 level 1 HD biofoam protectors with EVA padding on chest and back. Memory foam shoulder and elbow protectors for high shock absorption. Breathability provided by perforated high-intensity biofoam and fabric underneath also perforated. Side closures via Velcro and Velcro waist band. Side adjustments via elastic bands and waist band. A logo insert on front and back protectors. TPR Acerbis logo on back and Acerbis logo on TPR side velcro.

BODY ARMOUR
KORAZZA
0025595

0025595.318

FEATURES

The Korazza Body armour is a CE certified protector that offers excellent body protection against impact. The innovative construction combines the lightness/action of a motocross bib and the protection of a body armour. The protective jacket features multi-layer plastic and PE foam protectors, which provide extended protection, light weight and maximum ventilation. The back protector is designed to provide a better fit thanks to plates that adapt to the shape of the back. The front covers adapt to the body, following the anatomy of the chest. Shoulder and elbow pads are designed to provide excellent protection and ease of movement. Front and back plates are supported by super ventilated padding. EN 17092-6:2020 referring to Protective clothing for motorcyclists which guarantees: 1) Impact energy absorption	BACK PROTECTOR certified EN 1621-2:2014 level 1 SHOULDER AND ELBOW PROTECTION certified EN 1621-1:2012 level 1 FRONT certified EN 1621-3:2018 level 1 2) Resistance to impact abrasion 3) Seam resistance and structural closures 4) Tear resistance Elastic ventilated waistband with Velcro closure. Sleeves and body constructed with highly breathable elastic mesh. Rib protection with adjustment by elastic bands. YKK side zipper Polypropylene protectors with EVA padding on chest and back. Memory foam shoulder and elbow protectors for high shock absorption. Adjustment on Velcro strap. Lateral adjustments via elastic bands. Acerbis logo insert on front and back plastics. TPR A logo on back and TPR Acerbis logo on band. Homologous loop stitching labels under plastic on chest, back, left shoulder and left elbow.

FEATURES

CONSTRUCTION AND DESIGN:
Innovative multilayer of soft materials with high impact absorption: ventilation, protection, lightness, and flexibility
The bust protectors are soft and pre-shaped, they adapt to the female anatomy, three viscoelastic layers are bound by semi-rigid external biofoam, for greater shock-absorbing protection, better fitting and durability in use
The bib leaves the ribs free from fabric to increase heat exchange and breathability
Elastic waistband with the possibility of being removed: adjustable in extension and rotation

The low thickness and the softness of the chest and back protection are designed for the use of the neck-brace
Adaptability to different body sizes thanks to velcro adjustments on the shoulders and elastic bands on the ribs
BODY PROTECTIONS:
Chest protection with EN 1621-3 CE LEVEL 2 approval
Back protector with EN 1621-2 CE LEVEL 2 approval
Padded ribs
SIZES: SINGLE THAT GOES FROM “S” to “XL” (from 150cm to 180cm) thanks to the possibility of adjusting the shoulder straps.

PROTECTOR
0024526

0024526.318

FEATURES

The soft back protection in memory foam adapts to the body: the viscoelastic technology provides a better shock-absorbent protection and better fitting. There are large openings on the back protector that guarantee ventilation, lightness and flexibility. The innovative design combines the versatility of a soft and flexible back with an additional, increased level of protection, enclosed on the outside by a perforated elastic fabric offering excellent durability over time. A highly breathable 3D mesh is in contact with the back to provide optimal comfort even in the hottest seasons	Perforated waistband with elastics on the hips. Adaptability to different body sizes thanks to elastic adjustments on the shoulders and waistband The design, is suitable for both female and male anatomy, excellent for motor sports, cycling, horse riding, winter sports and in all those situations where a higher level of protection is required. SPECKTRUM KID
BODY ARMOUR
0024545

0024545.318

FEATURES

Innovative nest-texture for plastic parts: ventilation, protection, light weight Plastic plates adapting to the body, fitted on soft biofoam, for a better shock-absorbing protection and body-fitting The innovative design combines the light weight/ventilation of a cross chest protector and a body armour protection: the shoulder and elbow protectors are fitted on sleeves of perforated stretch fabric, designed to guarantee high breathability and adherence to the arms. The sleeves themselves are attached to the padded shoulder straps of the chest protector, leaving the ribs free of fabric to increase heat exchange and breathability.	Removable back and front protection to accommodate the neck-brace Adaptability to different body sizes thanks to adjustments on the sides BODY PROTECTION Chest protection EN1621-3:2018 LEVEL 2 certified Back protector EN1621-2:2014 EC LEVEL 2 certified Shoulder and elbow protection extended in soft material EN1621-1:2012 LEVEL 1 certified Semi-rigid rib protectors with stone shield approval EN 14021:2003
